

ADMINISTRATION OPPONENTS MASS ON ROAD MEASURE

Many Appropriations Recommended by the Committee

(By The Associated Press)
SPRINGFIELD, Ill., Feb. 22.—Administration opponents massing their forces for an attack upon the \$30,000,000 road appropriation measure passed by the senate last week and recommended for passage in the house by the appropriations committee of the body today, according to Representative Ben Mitchell, Democrat, Chicago, who fought the recommendation. The senate vote on the bill was overwhelming after a floor fight in which anti-administration senators made a record of their views but voted for the measure as they were in the minority. The same fight may be witnessed in the house when the bill is expected to pass.

The \$30,000,000 is the remaining half of the original \$60,000,000 bond issue voted four years ago. The entire amount was appropriated last session but only half was used and it is therefore necessary, under the law, to reappropriate the remaining half of work for the present year.

The appropriations committee today received five other measures as separate bills taken from recommendations in the state normal school budget. The state normal school will receive a total of \$2,229,456 if the bill is passed without any change in their division. The allotments for the schools follow:

Illinois State Normal University at Normal, \$568,062.
Illinois State Teachers College at Charleston, \$388,500.
Western Illinois State Teachers College, Macomb, \$595,952.
Northern Illinois State Teachers College at DeKalb, \$409,686.
Southern Illinois State Teachers College, Carbondale, \$272,556.
Governor Small signed two bills today the first of the session, one appropriating \$35,000 to the department of health for anti-toxins and the other amending the primary law by eliminating special primary elections. The latter passed the house yesterday. It affects a condition in Ford county.

Representative Smekel's bill for appropriations of the \$20,146,248 to the use of the department of public welfare is subdivided among state institutions for general upkeep, expense, salaries, food, etc. The general office expense of the department, \$721,200. For state hospitals at Elgin, \$1,153,530; at Kankakee, \$1,535,082; at Jacksonville, \$1,044,288; at Anna, \$987,882; at Watertown, \$599,972; Peoria, \$1,116,854; Chester, \$175,852; Chicago, \$1,969,738; Alton, \$730,582; Dixon, \$754,143.

The appropriations for the various state schools: Lincoln State school and colony, \$1,087,003; Illinois School for Deaf, \$513,604; Illinois School for Blind, \$280,998; Illinois Home for Blind, \$92,670; Illinois Soldiers and Sailors Home, \$681,420; Soldiers' Widows' Home, \$92,792; Illinois Soldiers' Orphans Home, \$558,584; Charitable Eye and Ear Infirmary, \$34,492; Training school for girls, \$414,644; St. Charles school for boys, \$721,032; Illinois State Penitentiary, \$1,135,986; Southern Illinois State Penitentiary, \$800,294; State Reformatory, \$819,212; Illinois Women's Prison, \$67,820; Illinois State Farm, \$121,000.

Additional appropriations listed for various state divisions and presented today for use by the department of public welfare include:

Pardons and paroles, \$259,900.
Visitation of Children, \$85,404.
Visitation of Adult Blind, \$29,294.
Psychopathic Institute, \$77,270.
Central group hospital, \$374,000.
To the criminologist, \$129,560.
Three hundred fifty thousand to the use of the welfare department to relieve crowded conditions in state institutions.
Promagation of fruit, trees, etc., \$10,000.
Working capital from the state treasurer's office for industries in state, penal institutions \$3,000,000.
For conveying prisoners and patients to and from state institutions, sheriff's etc., \$89,000.
Twenty bills went into the house hopper, in addition to two joint resolutions, one of which provided for a state reappropriation. This resolution, however, was held on the speaker's table. It would give Cook county a total of 58 members in the general assembly or less than the present representation. County representation is provided under the resolution each of the 102 counties electing a representative, one additional representative from each senatorial district would also be permitted except in Cook county where two representatives would be chosen from each senatorial district.

Mrs. Sophie Erhardt and daughter made a trip to the city yesterday from Beardstown and spent the day with friends.

THREE WORKERS ARE MISSING FOLLOWING POWDER EXPLOSION

Dozen Also Injured When Four Buildings are Destroyed

(By The Associated Press)
GRAFTON, Ill., Feb. 22.—Three workers missing and a dozen slight injured were the toll tonight of a series of explosions which destroyed six buildings of the Illinois Powder company plant near here this afternoon.

Fire which broke out after the blasts and threatened more serious explosions was brought under control this evening.

George Hoffnagle, Noah Johnson and Sidney Light are those unaccounted for. The injured were struck by flying debris.

Points within a radius of 25 miles reported feeling the detonations, which shattered windows and rocked houses in Grafton.

Communication with the plant was severed when the explosion broke the wires.

Charles P. White, general manager and Sam Brunk, superintendent of the plant, said they believed the explosion started in the gelatin house, where explosives are cooked. This house together with the glycerine house, the dynamite mixing house and the machine punch house which were grouped together were demolished. An estimate of the property damage was not available tonight.

The plant gives employment to approximately 100 persons, who hurried from the premises after the first explosion. Employees of the company tonight were guarding the plant, which comprises forty buildings spread over a 135 acre tract of land.

Heroic work was performed by the company's fire fighting company which at one time threatened to reach a building where 100 tons of nitroglycerine were stored.

A Chicago, Peoria & St. Louis passenger train which was due to leave Grafton for Alton was held at the local station until danger of further explosions was passed.

**AUTHORITIES ARE
MAKING READY FOR
BIG COURT FIGHT**

Will Try to Give Counterfeiter's Maximum of 45 Years

(By The Associated Press)
NEW YORK, Feb. 22.—With international counterfeiting system wrecked by secret service agents who laid its workings bare yesterday and with 500 or 600 persons connected with the ring in a dozen countries, under arrest, federal authorities today prepared for a fight to send the counterfeiters to jail for the maximum term of 45 years.

While court evidence was being set in order the dragnet of the secret service was extended to most of the large cities of the United States to catch hundreds of passers of counterfeit money implicated by clues captured in Tuesday's raid here.

Joseph A. Palma, chief of the special secret service squad which for eight months tracked the makers and distributors of spurious money gave evidence of the widespread international ramification of the plot by announcing that fifteen persons had been arrested in England, France, Egypt, Germany, Cuba, Austria and the Bahamas as a result of information furnished by the American secret service.

Some dies used in making spurious specie were smuggled here from Italy in large cheese officials said today.

**AGED RESIDENTS
RECALL LOGAN'S WIDOW**

(By The Associated Press)
MARION, Ill., Feb. 22.—Aged residents tonight recalled that Mrs. Mary Cunningham Logan, widow of General John A. Logan, whose death in Washington today caused adjournment of court in the second Herin mine riot trial was well known and beloved here where she made her home during her youth.

During the civil war Mrs. Logan accompanied her husband when danger was confronting him and aided him in swaying the forces of Southern Illinois to the ranks of the Union army. General Logan delivered a speech which is said to have swung this section a seething mass of indecision to the union cause from the same court house where the Herin trial is in progress.

**ACQUITTED OF MURDER
TAKE ON BIG JOB**

Chicago, Feb. 22.—After a jury had acquitted him of a charge of having murdered Rocco Zito, Antonio Padula, of Melrose Park, today announced that he would assume support and care of Zito's seven children in addition to his own seven offspring. Padula said he had shot, in self defense, at another man but killed Zito.

RECORD MADE IN CONSUMPTION OF MEAT IN THE U. S.

Estimates Amount for 1922 at 16,333,- 000,000 Pounds

(By The Associated Press)
WASHINGTON, Feb. 22.—More meat was consumed in the United States last year than in any previous year the Department of Agriculture announced today. The total consumption was estimated at 16,333,000,000 pounds which amounts to 149.7 pounds per person applying the July 1, 1922, estimate of population. The per capita consumption showed an increase of six pounds over 1921, and 5 1/2 pounds over 1920.

"Coupled with the decrease in the exports and somewhat higher prices to purchasers in 1922," the department said "these figures evidence a satisfactory state of the home market due doubtless to the prosperous condition and better purchasing power of the people generally."

The average meat bill per person in 1922 according to the estimates was made up of 61.4 pounds of beef, 7.3 pounds of veal, 5 pounds of mutton and lamb and 76 pounds of pork. All classes of meat except mutton and lamb showed increased consumption. The largest increase was in beef 3.6 pounds per person, while the increased consumption of pork was only slightly less, 3.1 pounds per capita. Lamb and mutton decreased 1.2 pounds per capita.

The conversion of corn into lard by means of the hog is one of the major industries of the country, the product of which goes to all parts of the world the department announced. The 67,050,745 hogs slaughtered in 1922 yielded over 9,000,000,000 pounds of meat and 2,333,000,000 pounds of lard. This is the highest production of lard on record and as the exports also were considerable less than in 1921, it follows that the total consumption also was highest. The per capita consumption however, was exceeded in 1916.

The adverse conditions of foreign exchange and the poorer purchasing power of European countries have seriously affected the exports of meat products. Foreign trade in beef has practically ceased the department said and while there has always been a large exportable surplus of pork products and lard the trade in the former (mostly bacon and hams) has steadily diminished in the last four years.

Lard, alone, chiefly thru the re-entry of Germany as a large purchaser since the war, has held a commanding position in foreign trade. Exports of lard were highest on record in 1921, totaling 893,000 pounds and while they fell away over 100,000,000 pounds last year the total was second highest. Great Britain is the chief customer for American lard and Germany is next.

**THE DAY'S EVENTS
IN WASHINGTON**

(By The Associated Press)
In observance of Washington's birthday, government activities, except congress, were suspended.

Without recommendation a senate banking sub-committee reported the contested nomination of James G. McNary, New Mexico banker, to be comptroller of the currency.

Carrying \$152,804,843 of which \$78,675,000 would be available for refunding internal revenue illegally collected, the third deficiency appropriation bill was reported to the house.

Republican leaders in the house abandoned plans to call up the bill for government purchase of the Cape Cod canal when opposition to consideration of the measure developed into a filibuster.

Secretary Hoover, it became known informed a house appropriation sub-committee he favored development of Muscle Shoals for manufacture of nitrates and was opposed to government operation of the project.

As the senate filibuster against the administration bill entered its fourth day with no signs of wavering, Republican leaders considered the advisability of breaking the deadlock by recommending the measure enough votes for such a vote was declared having been pledged.

The proposed constitutional amendments, one by Senator Norris, Republican, Nebraska, to advance the date of the president's inauguration and the first regular session of a new congress the other by Representative Foster, Republican, Ohio, to regulate child labor were ordered reported to the house.

Challenging the right of Earle B. Mayfield to take his seat in the next congress as a senator from Texas, George E. B. Paddy, who as an opponent of Mayfield in the November election accused him of being the Ku Klux Klan candidate filed papers with the senate containing sweeping charges against the Klan and its officers.

Glimmer of Hope For Bonus Advocates

(By The Associated Press)

WASHINGTON, Feb. 22.—Soldiers' bonus advocates in the house were given a glimmer of hope today by Chairman Fordney of the ways and means committee author of the measure vetoed by President Harding but it proved shortlived. Mr. Fordney, addressing the house on the British debt settlement said Secretary Mellon had told him that he had no objection to the use of the money received from the foreign debt, principal and interest in financing a bonus for former service men after the money had been obtained.

Mr. Mellon when his attention was called to Mr. Fordney's remarks said he had no recollection of having made the statement and it was reiterated at the treasury that he adhered to his position that the government was obligated to apply at least the interest from the debt to the retirement of liberty bonds.

The treasury secretary communicated with Mr. Fordney by telephone and the Michigan representative stated later that evidently he had misunderstood Mr. Mellon and would strike his remarks from the record of the house proceedings. He added that at the first opportunity he would make an explanation of the matter to the house.

The bonus question was brought up by Representative Fish, Republican.

"The distinguished gentleman from Michigan, Mr. Fordney, will leave the house in a short time," said Mr. Fish, "and the bill which he introduced known as the bonus bill will die at the end of this session. I wish the gentleman would inform the house as a matter of record about the statement that he told me yesterday that the secretary of the treasury had made to him with respect to the use of these funds."

"In speaking with the secretary of the treasury about the wisdom or advisability at the present time of presenting to congress a bonus bill," replied Mr. Fordney, "he suggested that before an interview with the president on the method of raising the money to meet the payment of that bonus, but added that he had not the slightest objection to the money received as interest and principal upon those foreign loans after we had secured that money being used to pay the soldiers bonus." That is the statement he made.

"Does that mean the soldiers will have to wait six or two years?" asked Representative Blanton, Democrat, Texas, referring to the time the British bonds are to run.

"The gentleman knows that it is not the case, or he ought to know it," Mr. Fordney said.

**KU KLUX KLAN
CONTROVERSY
GETS IN SENATE**

Scathing Indictment in Connection With Charges

(By The Associated Press)
WASHINGTON, Feb. 22.—The controversy over the Ku Klux Klan was brought into the United States senate today with the filing of proceedings contesting the right of Earle B. Mayfield to become a senator from Texas. The contest was brought by George E. B. Paddy, Republican and "Independent Democratic" candidate for senator last November who declared himself elected despite the majority credited by election officers to Mayfield the regular Democratic nominee. A scathing indictment of the Klan of which it was charged that Mayfield was a member, was included in the petition and senate procedure would be referred to the privileges and elections committee when congress reassembles and pending the committee's investigation the oath will be administered.

The contestant's petition declared that Mayfield's was "not honestly or lawfully elected," by virtue of the fact that Paddy's name was kept off the printed ballot, because of the alleged "conspiracy" of the Klan and for other reasons.

The senate was asked to preserve and recount the Texas ballots to investigate the Texas primary and election and to prohibit Mayfield from taking the oath when the next congress convenes. His credentials having been received however, the whole matter must await senate procedure would be referred to the privileges and elections committee when congress reassembles and pending the committee's investigation the oath will be administered.

**WOLF OF LA SALLE
STREET SENTENCED**

(By The Associated Press)
CHICAGO, Feb. 22.—Federal Judge Ableman today sentenced John W. Worthington, known as "the Wolf of LaSalle street" to Leavenworth Federal prison for two years and to pay a fine of \$1,000 upon conviction of using the mails to defraud.

Before passing sentence the jurist overruled a motion for a new trial for the convicted man.

Worthington was found guilty by a jury last Saturday of using the mail to defraud in connection with the operations of his mercantile securities and investment company, nine years after he was indicted.

The conviction was the first obtained against Worthington in many prosecutions against him in state and federal courts here for more than a dozen years although he had served a sentence in Sing Sing Prison for fraud.

The evidence showed that he converted into cash at least \$50,000 in securities and other property obtained from school teachers, working people, farmers and others thruout the country, after promising safety and large profits to investors.

FILIBUSTER ON SHIPPING BILL IS CONTINUING

Measure Last Night Appeared Headed Toward its Doom

(By The Associated Press)
WASHINGTON, Feb. 22.—Buffeted by another day of filibuster in the senate the administration shipping bill tonight appeared headed toward its doom. The end seemed likely not later than Saturday on a motion to recommit the legislation or to displace it with another bill.

The filibuster which began Monday night, continued unabated tonight. During its progress there were private conferences between Republican senators and later between Republican and Democratic leaders in which negotiations were conducted for definite action by Saturday night so that the final week of the session might be left open to the consideration of other pressing legislation.

Opponents of the ship bill, after canvassing the strength of their forces openly said for the first time that they had enough votes to get the measure out of the way unless its supporters could obtain some action upon it within the next two days. The prospect of its supporters being able to do this appeared dark in fact it grew darker with each hour that the flow of talk continued.

Several senators who have been mildly favorably toward the bill privately admitted today that they would not continue their support of the measure much further if it continued to block other legislation.

Senator Willis, Republican, of Ohio, stated on the floor that he desired to develop if the bill was to be killed by filibustering. For it so, he said, there were many other bills, including some he was interested in which should be taken up. Senator McKellar, Democrat, Tennessee, later plainly told the senate that it was the intention of those opposed to the legislation to kill it by any legitimate means and that he considered filibustering legitimate.

The opinion of senators as to the means of bringing the filibuster to an end differed some opposing recommitment and favoring displacement by another bill. Either method, it was generally conceded meant the death of the ship measure. General agreement seemed to prevail, however, that nothing should be attempted until the bill was given at least another day of life.

President Harding had not been apprised of the proposed move late in the day so far as can be ascertained, but it was thought likely that a number of Republican senators would be called to the white house for conference tomorrow.

**SENATOR OWEN WANTS
TO JOIN THE LEAGUE**

(By The Associated Press)
DETROIT, Mich., Feb. 22.—An appeal for America to become the moral and spiritual leader of the world, just as this country today is the financial and commercial leader, was sounded here tonight by United States Senator Robert L. Owen of Oklahoma, speaking at a jollification banquet of Michigan Democrats assembled to celebrate the election last autumn of Woodbridge W. Ferris as United States senator from Michigan. Former Governor Ferris is the first Democrat to be sent to the senate from Michigan in 70 years.

"America no longer should be misled by the stupid talk of entangling alliances," Senator Owen said. "We should cooperate actively with other free nations in making effective the principles of the league of nations, and with such reservations as congress may impose, adhere to the league."

The banquet was preliminary to the Democratic state convention here tomorrow at which candidates for secondary state offices will be named. Speculation on the eve of the convention centered on the question of whether a resolution would be presented to the assembly endorsing Henry Ford as the Democratic candidate for president in 1924.

The Democratic delegations expressed eagerness tonight to learn whether Mr. Ford would put in an appearance at the convention tomorrow. He was chosen to head the Wayne county (Detroit) delegation to the convention. The manufacturer has given no intimation as to whether he would attend.

ROLLA SPAULDING WILL TAKE STAND IN OWN DEFENSE

Defendant in Peoria Murder Case Takes Stand Today

(By The Associated Press)
TOULON, Ill., Feb. 22.—Rolla Spaulding, on trial for the murder of Constable Arthur Smith in Peoria, will take the stand in his own defense when court convenes tomorrow morning. Closing arguments are expected to be made by tomorrow night.

Two witnesses were called by the defense this afternoon in an effort to establish an alibi for Spaulding. The first was Otto Swanson, secretary of the American Oil company, East Peoria.

Swanson testified that Spaulding left his automobile in the care of a companion at the filling station of the company in East Peoria on the night of June 12. The accused and a friend had driven up to the station at the same time two men in a truck arrived. One of the men in the truck asked the way to Havana and the man who was identified as Spaulding and Swanson showed him the way. The evidence was presented, it is said to show that Spaulding was not in the vicinity of Bradley Park when Smith was shot.

Mrs. Maud Richards, mother of John Schorr for whose murder Spaulding is accused, testified today that her son was in company with Spaulding between 5 and 6 o'clock the night Smith was shot and again the following morning. She identified Schorr's skull during her stay on the stand as that of her son.

**WOULD AUTHORIZE
RETURN OF PROPERTY
SEIZED DURING WAR**

House Began Consideration of the Measure Yesterday

(By The Associated Press)
WASHINGTON, Feb. 22.—The house today began consideration of the administration bill which would authorize return of the smaller trusts held by the alien property custodian and a fight to amend the measure, so as to effect the relinquishment of all the property seized during the war from enemy aliens was launched immediately by members who asserted its further retention was a violation of international law. When adjournment was taken about half of the bill had been read but not approved.

Proponents of the measure led by Representative Newton of Minnesota, and Graham of Illinois, Republican members of the commerce commission argued that in such as Germany, Austria and Hungary had failed to make suitable provisions for the satisfaction of American claims growing out of the war it would not be wise to recommend the return of property in value greater than stipulated in the bill.

He denied that confiscation was contemplated.

"With the tales of the victims of the Lusitania in memory," said Mr. Graham, "we cannot forget that our first duty is to our own interests."

Declaring that the continued holding the property would be nothing more than confiscation, three Democratic members of the committee urged return of all property.

**CONGRESS APPROVES
DEBT FUND AGREEMENT**

(By The Associated Press)
WASHINGTON, Feb. 22.—The British debt funding arrangement tonight was one step nearer completion, congressional approval of the act ratifying the recently negotiated settlement with Great Britain having been completed today. Only the signature of President Harding is required to permit the treasury to exchange formal settlement agreements. Congressional action was challenged when the house accepted Senate bill without modification. As a result of the congressional approval and with the signature of the president assumed to be certain, treasury officials began the drafting of the indentures as are to be exchanged between the United States and Great Britain and which will put into operation the program for refunding over sixty two years the British war time debt of \$1,600,000,000.

OFFICERS SEARCH FOR EXPONENT OF FRENZIED FINANCE

Italian Immigrant of Dozen Years Ago Embezzles Million

(By The Associated Press)
CHICAGO, Feb. 22.—An immigrant from Italy of a dozen years ago who later became a west side barber in Chicago, is being sought tonight along the Mexican border while bankers and state officials trace his career in frenzied finance, a career which has already cost investors from a half million to a million dollars or more. The missing barber-banker is Joseph M. Marino, or Joseph B. Blata, a dapper man, 27 years old, just a little over five feet tall and remarkably broad.

"If you see a man about five feet, two, and almost three feet broad his Marino," a Burns detective who is directing the search said today.

While detectives are searching for Marino who disappeared in Buffalo, N. Y., last Friday after he is alleged to have peddled nearly \$200,000 worth of stolen securities, Frank L. Taylor, ex-railroad fireman, who rose to the position of \$50 a week president of the First National Bank of Warren, Mass., when Marino obtained control of that institution, is awaiting arraignment tomorrow on a charge of embezzling national bank funds.

Taylor told Burns operatives who arrested him that he at one time worked for the Burns agency and also had been a secret agent of the department of justice. Burns agents here figure the known losses from Marino's operations at \$591,000, and say that they expect much more to appear before the investigation is complete. Thru Niagara Life Insurance company of Buffalo, N. Y., they say, investors have lost \$248,000.

The closing of the Warren, Mass., bank last week revealed shortage of \$215,000. Taylor claims Marino cleaned out the bank's vault and later peddled the securities in and around Buffalo.

The failure of the Mechanics and Merchants bank in Philadelphia on February 12, added another \$130,000 to the total.

A New York congressman is said by the detectives to have lost a sum estimated at from \$150,000 to \$200,000 thru his faith in Marino's schemes.

The detectives are also investigating the connection between a bank at Wayawawa, Wis., and the Buffalo insurance company.

Marino's career as a financier according to Burns men who have been following him for several years started about 1917 or 1918 when he fathered a scheme for starting a new bank at Ottawa, Ill., and buying out the existing bank. As a result of that scheme he was indicted by a grand jury there for operating a confidence game, but disappeared. After the war he re-appeared in America and obtained the confidence of a large number of ex-soldiers of Italian parentage. In this stage of his career the detectives describe him as wearing a flamboyant purple tie which furnished background for an emblem, more than an inch in diameter of the high degree of a world wide credit order. He boasted he was among those present when a sum of money was conferred a President Harding by an Ohio lodge.

Shingle prices are very much higher than used to be the case. That fact has deterred many a householder from putting on a new roof. But the frequency of roof fires and the attendant losses indicate that a new roof is really an economy measure.

Deputy U. S. marshals are making a wide spread search for Tim Murphy, under sentence to the penitentiary at Leavenworth because of his complicity in a big Chicago mail robbery. Every legal method has been used by Murphy's friends to keep him out of the penitentiary. Now there is a chance that he will escape punishment by jumping his bond. If this often convicted man is permitted to escape a prison penalty it will certainly be a travesty upon justice.

Chances are said to be good for securing a second Herrin jury in much less time than was consumed in preparation for the first trial. The reason is that more men in Williamson county are just now unemployed and some of them are quite active in their efforts to qualify as jurors. Unfortunately those who seek jury service because of the "easy" money paid for the service, are not usually the persons best qualified to render impartial service.

The statement was made in argument before the Illinois legislature that within a few years' time the short haul and electric-

ally operated roads will be out of business. Conditions may tend to bring this statement to pass, but should not be used as an argument for the abolishment of the C. P. & St. L. road.

Instead of abolishment why not make the road a part of a great system and then it will no longer be under the short line category. One thing is certain, the people who live in towns along the C. P. & St. L. are entitled to some kind of adequate transportation service.

The filibuster continues in the U. S. senate against the ship subsidy bill. A small group of Republican senators is mainly responsible for the present filibuster and the activity of these men indicates their belief that the measure has an excellent chance for passage if ever it comes to a vote.

Certainly the time must arrive when the rules are so changed that a minority cannot defeat the wishes of a majority by a filibustering method is impossible. Such changes have often been considered but seemingly the majority of the senators feel when they talk about changing rules that perhaps some time they may want to use the filibuster for their own protection, and so the rules stand.

The recent killing of one labor leader by another in Chicago simply adds another to the long list of similar crimes, the result of a labor war which has long disturbed the great city.

That killing would not have happened had the two men been without revolvers. It is easy enough to show that the custom of these "business agents" is to go armed for they constantly fear attack. The day must come when the law against carrying concealed weapons is enforced. The observance of that law will very materially reduce the number of murders. This statement reminds us that while the law against the carrying of concealed weapons is frequently violated no one is heard advocating the plan of repealing the law, nor urging the public to ignore its provisions.

Yet there are prominent opponents of prohibition who argue

BERTON BRALEY'S DAILY POEM

THE CHARM

By Berton Braley

THERE'S lots of things I love her for—her slenderness and grace,
The joy that dances in her eyes, the beauty of her face,
The lips that are so soft to kiss, the voice I like to hear;
She has a myriad witcheries that make her sweet and dear.
But more, I think, than any other charm of hers I prize,
The little laughing wrinkles in the corners of her eyes!

THEY won me from the very first, they'll hold me to the last,
A happy, wholesome magic with a lure that binds me fast,
And by the gods of cheerfulness and gay, warm-hearted mirth,
I'll strive to bring her happiness for all that I am worth;
I'll try to keep, with all the skill a lover can devise,
Those little laughing wrinkles in the corners of her eyes!

TOGETHER we will laugh thru life, and bravely as can be,
We'll chuckle in the face of fate and grin at destiny,
Endeavoring to make the world perhaps a little bit
More frolicsome and sunnier because we've lived in it;
And all of our posterity will have, so I surmise,
Those little laughing wrinkles in the corners of their eyes!

that because the law is disobeyed that it is a failure and go even further in urging the public to ignore the law, no doubt in the hope of creating conditions which will practically amount to its annulment.

CHEATING SELF (NEA)

Word comes over the cable from Germany that Prof. Rontgen, discoverer of the X-ray and who died and was cremated recently, spent his last years in poverty.

He refused to patent his discovery, believing it so valuable that he should give it to the world without making a profit from it himself. His chief income when he died was a pension of \$50 a year. He lived at the home of a friend.

We have tremendous respect for Prof. Rontgen's high idealism. We do not believe that his wonderful brain was capable of having the "deviation from normal" that makes egomaniacs desire to pose as martyrs. Nevertheless, he was a martyr, a victim of his ideals.

He was honest with the world.

But was he really honest with himself.

From cradle to grave we have the theory of honesty drummed into us. Did you ever observe that mostly this drumming has to do with honesty in our relations to others—and that little is said about honesty to ourselves?

You today are not the same person you were years ago. And the you of the future will be different from the you of today. The future you will be a worn-out machine, with earning power reduced. And you owe, to the future you, a just return on today's services so that you will not cheat the future you.

That individual or the future, you, is depending on you of today not to cheat him.

Rontgen, discoverer of the mysterious and invaluable X-ray, cheated his future self.

It's a good idea to apply, to this idea, this brake: It is as dishonest to attempt to get more than we are entitled to, as it is to take less.

I. O. O. F. SCHOOL OF INSTRUCTION HELD

Was Largely Attended and a Big Success — Fifty Past Noble Grand Receive Grand Lodge Degree and Past Grand Degree

The Odd Fellows' School of Instruction which was held Thursday afternoon and evening in Odd Fellows Temple on East State street was a success in every particular. The afternoon session opened at two o'clock with a large attendance, not only of Morgan County Odd Fellows but with large delegations from Cass, Scott and Greene counties.

Past Grand Master H. M. Blood, of the work. District Deputy Clyde McAllister of Meredosia called the meeting to order and briefly introduced the grand instructor who explained the need of more efficiency in the regular work of the lodge, and urged a more careful attention to the many details that go to make up an efficient lodge. He explained the plans of Grand Master John D. Phillips as to grading on a basis of one hundred per cent and told how lodges could become "100 per cent lodges."

At four o'clock a special session of the Grand Lodge of the State of Illinois was opened with Past Grand Master Blood acting as Grand Master. Deputy Grand Master Turner filling his regular station, Clyde McAllister of No. 962, Meredosia, acting as Grand Warden; H. W. Kinnett of No. 962, Meredosia, as Grand Chaplain; J. Marshall Miller of No. 4, Jacksonville, as Grand Secretary; J. E. Coultas, of No. 70, Winchester, as Grand Conductor; Charles Ogle of No. 92, Arcadia, as Grand Marshal; William E. Thompson, of No. 243, Jacksonville, filling his regular station as Grand Guardian, and S. F. Sooy, of No. 415, Murrayville, acting as Grand Herald.

The credential committee consisted of William R. Anderson of No. 121, Franklin; Edward Gallagher, of No. 711, Woodson; and Walter B. Strang, of No. 681, Roodhouse, and reported the names of forty one Past Grands who were eligible to take the Grand Lodge Degree and Past Grand's Degree. The degrees were conferred upon this large class by Past Master Blood and Deputy Grand Master Turner, and later in the evening the degrees were conferred upon a class of nine Past Grands, making a total of fifty to receive these degrees.

Those Taking Degrees
After the degrees were conferred the acting Grand Master and the Deputy Grand Master explained the privileges of members of the Grand Lodge and the responsibilities that they assume. Those receiving the degrees are as follows:

J. J. Clark, Arcadia.
Ralph Turley, Franklin.
Harvey Green, Naples.
Oscar A. Brainer, Troy, Ohio.
J. F. Allen, Scott, Bluffs.
B. W. Frohwitter, Scott, Bluffs.
W. E. Mundy, Scott, Bluffs.
William R. Busch, Scott, Bluffs.
John R. Thompson, Scott, Bluffs.

H. R. Bartholomew, Amicitia, Naples.
Clifford Welch, Naples.
E. D. Hembrough, Lynnville.
C. E. Williamson, Urapia.
Tom Dunaway, Naples.
D. M. Cooper, Lynnville.
W. E. Watson, Lynnville.
J. H. Schuyler, Carrollton.
Ewing Lankford, Scott, Bluffs.
S. J. Carter, Urapia.

John Bobbitt, Bethel.
James E. Johnson, Urapia.
Byron W. Stewart, Urapia.
Otis Leak, Franklin.

A. G. Rawlings, Franklin.
A. G. Rawlings, Franklin.
Pernell McNeely, Franklin.
William Bentley, Naples.
O. H. Duling, Oak, Ashland.
H. G. Suddam, Oak, Ashland.
V. F. Moore, Roodhouse.
Frank T. Irving, Illini.
H. B. Summers, Lynnville.
William J. Roberts, Urapia.
Charles Darley, Franklin.
E. A. Ranson, Lynnville.
E. P. Sooy, Woodson.
N. C. Caldwell, Concord.
George A. Goodpasture, Concord.

Grant Mader, Winchester.
Raymond Scott, Meredosia.
Harry Lefever, Meredosia.
S. B. McLane, Essex, Essex, Ill.
C. L. Neill, Arcadia.
E. A. Hull, Illini.
Charles H. Balsley, Urapia.
John A. Paschall, Urapia.
Herman Ellis, Urapia.
Charles S. Black, Urapia.
Clyde B. Black, Urapia.
William E. Austin, Urapia.

After the degrees were conferred upon the class of forty one, Acting Grand Master Blood stated that he had been authorized to officially install William F. Thompson as Grand Guardian, which was done. At the Grand Lodge held in Springfield last October Grand Master Phillips being unable to attend on account of sickness, had sent in his list of appointments, including the name of Judge Thompson for Grand Guardian. At the installation of officers comes at the close of the Grand Lodge session. Judge Thompson, not knowing of his appointment, left before his name was announced and missed being installed at that time. Some of his friends hint that he got "cold feet" but he attempts to prove an alibi. At any rate he was duly installed Thursday and Morgan County Odd Fellows now list among their members one of the Grand Officers of the State of Illinois.

Explains Dramatic Work.
The evening session of the School of Instruction was opened at seven o'clock and Grand Instructor Blood took up the various degrees of the order and explained the dramatic work that is possible in each degree, and the work that is necessary in order to

bring out the lessons which are to be taught.

Past Grand Master W. A. Hubbard, of Carrollton, was present at the evening session. The capacity of the lodge hall was taxed in its seating capacity. The secret work was exemplified and its significance explained in a striking and lucid manner to the entertainment and instruction of all present. The whole occasion was one of uplift and great benefit to Odd Fellowship in this vicinity. The beauties of the secret work were so finely portrayed by the Grand Instructor and his assistants that every Odd Fellow was made to feel that he was connected with an ancient and wonderful fraternity, that taught and exemplified the principles of friendship, love and truth, and under the Fatherhood of God made the brotherhood of man possible of realization as scarcely dreamed of in this world.

JAMES LARGE DIES THURSDAY EVENING

Well Known Local Resident Passes Away After Cerebral Hemorrhage — Funeral to be Sunday Afternoon.

James F. Large, a well known and lifelong resident of this city, passed away at 6:55 o'clock Thursday evening at his home, 506 South Main street, following a cerebral hemorrhage. Mr. Large suffered an attack Monday morning, and has since been in serious condition. He has been in failing health for some time.

Deceased was born in this city July 4, 1863, and was 58 years of age at the time of his death. He has lived all his life in this city, except for a few years spent in Springfield. He was a painter and paperhanger by occupation and at one time engaged in the grocery business in this city; but for several years has been retired from active work.

The deceased is survived by his widow and three sons: Merle Francis Large of Kalamazoo, Mich.; Clarence Large, of South Clay avenue; and Glenn Large, at home. He also leaves three brothers: Ed and Harry Large, of this city; and Thomas Large, of St. Louis; three sisters: Mrs. Frank Barnett, of Decatur; Mrs. Chris Ennis, of Springfield; and Mrs. Harry Carroll, of this city; and two grandchildren: Elmer and Arthur Large. One daughter died in infancy.

Funeral services will be held from the residence at 3:30 o'clock Sunday afternoon, and will be in charge of Rev. M. L. Pontius.

CALDWELL TO SERVE ON STATE COMMITTEE

H. L. Caldwell of this city has recently been named a member of the water supply committee of the Illinois Society of Engineers, the other member of the committee being G. C. Habermeyer, engineer of the state water survey at Urbana.

The committee is expected to keep the society informed concerning matters of interest to engineers engaged in water supply work; to recommend action to the society for its executive committee; to further the interests of the society generally, as well as to keep accurate account of all water supply work in the state. Prof. H. E. Bobbitt of the University of Illinois is the president of the Illinois Society of Engineers.

LOCAL COMMANDERY TO RECEIVE HONOR

Hospitalier Commandery No. 31, Knights Templar, is to be especially honored next Saturday evening by a visit from Sir Knight Walter Harry Hanson, V. E. Deputy Grand Commander of the Grand Commandery, Knights Templar of Illinois. Other grand officers and members of the Elwood Commandery No. 6 of Springfield are expected to accompany the grand commander. The meeting will open at 7 o'clock with a reception for the distinguished visitor, to be followed by the conferring of the Order of the Temple on one candidate. The grand officer will then make an address, to be followed by refreshments.

A Pink Reflection

WOULD YOU buy a hand glass which turned everything before it pink? You would not! A mirror reflects exactly what is before it. The Victrola has no "tone." It is just a perfect mirror—that's all. Imagine adding "tone" to Elman's playing! To say that a reproducing machine has tone is to mislead. The Victrola reproduces—with the fidelity of a good mirror—exactly what is in the original. The marvelous accuracy of this reproduction will be demonstrated to you in our private rooms at any time. Do not be misled by "tone" arguments. There is no such thing. To add "tone" to a reproducing instrument would be to destroy the original. A great sum of money and many years' toil by clever people have produced a perfect instrument which gives but one tone—that of the instrument or vocal artist brought before you by its magic.

MADE TALK ON BANK'S PLACE IN COMMUNITY

E. E. Crabtree Speaker at Kiwanis Club Luncheon—Told of Bankers' Association Plan.

At the meeting of the Kiwanis club at the Peacock Inn Thursday noon, Mayor E. E. Crabtree made an address on "The General Idea of the Bank." The facts as presented were suggested by a committee of the American Bankers association.

Other guests of the club Thursday were Rev. C. D. Robertson, Walter Bellatti and Fred E. Lind, who is conducting a series of meetings at Centenary church. Mr. Lind sang two solos.

Mr. Crabtree in his address briefly sketched the growth of the banking business and told how some ideas have changed with reference to it in a comparatively few years.

The speaker said that it was about 1500 that the Romans made the first laws relating to banking. He said that there are now more than 30,000 banking institutions in the U. S., and that about nine-tenths of them are associated with the American Bankers association.

Some years ago the Association appointed a committee on public education. The purpose was thru Parent-Teacher associations, Teachers Institutes, Farmers Institutes, Chambers of Commerce, Boards of Trade, Mens and Women's clubs and other organizations to present such facts as will give the public a more accurate idea of the banking business.

Banks Work for Communities
Mr. Crabtree said that it was thru the cooperation of bankers that farming conditions had been improved and that bankers had co-operated with other lines of business for various improvement programs. The speaker explained that the banker by no means acted solely from selfish reasons, but that they realized that the building up of agriculture, the development of livestock industry, whatever was done to maintain the fertility of the soil, that in the end the banks

themselves would benefit because of the increased business.

Mr. Crabtree explained that knowledge of banking operations is of value because the bank plays an essential part in the life of every community and its development goes hand in hand with human progress.

In accordance with the Bankers association committee suggestion Mr. Crabtree went on to explain some general ideas with reference to bank organization, receiving of deposits, making of loans, etc. The facts were given in explanation of the ordinary bank statement, with reference to liabilities and assets.

In summing up the usefulness of the banking institution to the community Mr. Crabtree enumerated them under the following headings:

1. Cultivates habits of saving.
2. Handles saving.
3. Is the medium of financial transactions.
4. Is available for loans to promote successful business.
5. Serves for the safe keeping of money and valuables.

Usefulness to the nation was given under three heads: First, Develops community life and industry; Second, Promotes success and progress; Third, enlarges the commercial field for its locality.

Use of Bank Helps.

In conclusion Mr. Crabtree said:

"One thought, however, I want to leave with you today. Scarcely anywhere is there a financial transaction in which the bank does not have a direct or an indirect part, either thru the stockholders, the management, or the depositors. Every successful business person makes use of the bank for borrowing money, for the safekeeping of money and valuables and in other ways. The wonderful strides our country has made in the field of commerce can be accounted for largely by the manner in which the banks have been made use of by the people of just such communities as ours. It is important for you to see that as each American boy or girl, man or woman, cultivates the habit of saving, and handles savings and all other financial transactions thru the bank, he is being a real help to his community. Why? Because the bank is the reservoir into which flow the savings of the people of the community, to be used by the banker in helping to develop the industry and life of the community. The bank helps the people to succeed, and the community to progress. Acquire habits that lead to success. Use your bank and give the savings habit and the banking habit places of real prominence in your life."

M. E. Church Aid Members Spent Pleasant Afternoon at Church.

Franklin, Feb. 22.—The members of the Ladies Aid Society of the M. E. church whose birthdays occur in January, February and March, were hostesses at a birthday social given Thursday afternoon at the church. The members came dressed as children and a school room scene was enacted, with Mrs. Charles W. Olinger as the teacher. There was a program of recitations and songs and a very interesting time was had.

After the program came the serving of a two course luncheon. The decorations and the refreshments were such as to accord with the Washingtons birthday season.

Mrs. W. N. Luttrell was the chairman of the hostesses, the list including the following: Mrs. Mary Bearup, Mrs. Clara Volmeier, Mrs. Mabel Wright, Mrs. Eliza Luttrell, Mrs. Arthur Anderson, Mrs. William Hills, Mrs. Charle Hills, Mrs. Henry Matlock, Mrs. Dale Seymour, Mrs. John Austin, Mrs. Lula Cathoun, Mrs. A. Seymour, Miss Bertha Whitlock, Mrs. Nettie Williamson, Mrs. Charles Olinger, Mrs. Otis VanWinkle and Mrs. R. Y. Gibson.

CONDEMNED LAXNESS IN U. S. METHODS

Chas. E. Wells has recently written an article on "Liberty the Last Refuge of a Scoundrel." In this study of court methods in this country the writer makes comparison between England and American custom, with the purpose of showing that the penalty is much more likely to be administered to the guilty in England and with greater speed than is true in this country.

Mr. Wells inveighs against methods here in the following paragraphs:

"In the history of the English law and the law of the American colonies many sentences were more criminal than the crimes themselves. The laws of our Anglo-Saxon ancestors imposed as penalty for murder a fine proportioned to the rank of the victim, while our law knows no distinction of rank, and protects the lowest from the highest, the poorest from the richest, by the uniform penalty of death. This is looked upon as evidence of their barbarism and our civilization. But if these semi-barbaric Anglo-Saxon laws brought injustice because of their severity, our laws bring injustice in a different way because of the manner in which they are executed.

"It is a matter of fact that, in spite of our laws, any one who has money enough and wants to kill another may go into any one of our great centers of population and business, and gratify his desire, and then surrender himself to justice with the chances as a hundred to one that he will suffer no greater penalty than a temporary imprisonment and the loss of a sum proportioned partly to his own wealth and partly to the wealth and standing of the man he kills. His money will be paid, not to the family of the murdered man, who have lost their protection, not to the state, which has lost a citizen; but to the lawyers who understand how to secure delays, to find witnesses, to get juries to disagree."

As an example to show what force will do, reference is made to the determined policy that Former Postmaster General Hays used with reference to mail robberies and the good results achieved. On this subject Mr. Wells said:

"Several months ago the newspapers gave account after account of robberies of the U. S. mails. Trains were held up and wrecked and mail clerks murdered in cold blood. It was then that Will Hays, then postmaster general, said that such things must stop. Rewards were offered for the capture of such bandits and all mail trains were guarded by marines with orders 'shoot to kill.' Have you heard of any recent train robberies? Could not some similar policy be used against murders in this country? A policy of force."

Miss Ruth Henderson is confined to her home on South East street by illness.

ROUTT HIGH PLAYS ASHLAND TONIGHT

Probably Will Be Routt's Last Game of the Season Unless Some Teams Can Be Booked in the Next Few Days.

After defeating New Berlin high Wednesday evening Routt will hook up with Ashland high in Liberty hall this evening. The game will start at 8:15 o'clock.

Coach Coenen announced last night that his proteges were in excellent physical condition for the fray and he hopes to see them repeat their victory of several weeks ago.

Earlier in the season Routt defeated Ashland on the Ashland floor. Since then Ashland with the addition of several new players has made a good record and promise to give Routt a strenuous battle for honors.

In the defeat of New Berlin high Routt won from one of the strongest teams in Central Illinois. The team has lost only four games out of nineteen starts. The Springfield Register in referring to the New Berlin five said it had hopes of winning the district tournament to be held in Springfield.

Fans who attend the game this evening will see one of the fastest games of the season. The management of the Routt team wish to thank the fans for their liberal patronage during the season, which has helped to make basketball a success at the school. Tickets for the game tonight may be secured from students or at the school. Coach Coenen will select his team from the following players: Trahey, Gaitens, Murphy, McKavitt, forwards; Norris, center; Gebert, Doyle, Cleary, Kennedy, guards.

JOIE RAY ADDS ANOTHER MEDAL

BOSTON, Feb. 22.—The Boston mole trophy today was added to the collection of Joe Ray, Illinois A. C., who easily outstripped a fast field at the annual track meet of the Massachusetts American Legion. Ray finished in 4 minutes, 26 seconds, the fastest time recorded in races for the trophy.

Bob Brown, former Cornell star, and once two mile intercollegiate champion gave Ray his only competition after the race was well underway. He fell back in the final two laps and finished second about a quarter of a lap behind.

CARTHAGE TURNS THE TABLES ON ILLINOIS

Defeated Blue and White at Carthage Last Night by Score of 25 to 19—Illinois Was Leading at Half.

Coach Harmon's Illinois College basketball quintet was defeated by Carthage College at Carthage last night, the final score being 25 to 19.

A number of radio fans listened in and caught the report of the game which is broadcasted from Carthage when the team plays at home. Illinois started off well and looked for a victory as the score was 12 to 11 in favor of Illinois.

In the second half Carthage pulled up on even terms and finally went into the lead and stayed there, despite Illinois' strenuous efforts.

It was thru free throws that Illinois lost the game. Carthage made 11 out of fifteen tries while Illinois could get but five out of 13 tries.

Illinois will play Lombard at Galesburg tonight and then return home, arriving here Saturday morning. The game scheduled with DeKalb Normal for Saturday night has been called off. The score:

FEED THEM FIRST THEN SAVE THEM

ST. CHARLES.—"Feed them, first, then save them," is the slogan of the State School for Boys here.

The cream separators have been dismantled and the churn in the institution creamery has been discontinued, because the management believed whole milk and cream for the boys was an element in making them good citizens. Instead of supplying the officers of the school with cream and butter and giving the boys the skim milk, butter is now purchased outside for the officers and the boys get all the milk.

This illustrates the attempt being made at the home to develop the 650 boys there into real men, according to Col. Frank D. Whipp, superintendent of the home, which is under control of the state department of welfare headed by Judge C. H. Jenkins.

"The first duty of the state is the reclamation of these boys," said Col. Whipp, "is to fill their stomachs with good wholesome food and keep them full, give them baths, provide sanitary and comfortable surroundings and warm clothing. These are the first requisites in building the foundation for molding these boys into good characters."

"When some of these so-called delinquent youths come here, many of them are suffering from malnutrition, disease and filth. Some of them from the streets and alleys of our cities."

The dairy cattle on the 1290 acre farm of the home supply an average of one quart of whole milk to each boy a day. The cows are milked and fed by the boys themselves. Since the diet was changed from skim milk to whole milk, Col. Whipp said there has been a decided improvement in the physical appearance of the boys.

The farm has 110 dairy cattle all certified to be free from tuberculosis, giving an average of from 180 to 190 gallons of milk a day. Practically all the farm work is done by the boys. An abundance of vegetables from the garden and crops from the farm keep the lads well fed. Crops produced at the home last year were valued at \$50,000.

Since the opening of the institution 20 years ago, about 8,000 boys have received training there.

GIRARD HIGH DOWNS I. S. D. BY SCORE 20-13

Visitors Show Speed and Accuracy in the Baskets—I. S. D. Unable to Hit the Hoop Successfully.

(By WILLIAM JOHNSON.) With the visiting team working well in all departments of the game, and the playing of its quintet up to the standard the Illinois School for the Deaf suffered its second defeat at the hands of Girard high school last night in the David Prince gymnasium.

Featuring the performance last night was the magnificent passing and shooting of the invaders. To Garretson, England and Smith the lion's share of honor. The work of Smith at forward and Garretson at guard was glib and accurate. Smith made two field goals and six free throws, while Garretson made four free throws, while England made one. All evening spoiling several plays of the I. S. D. Two reasons why the I. S. D. did not win, as was expected, is that its passing did not work successfully and its shooting was rather poor.

At the beginning of the game both teams were working well. The red clad outfit from Girard got started first, then the whole team began to pick up speed. With Smith and Garretson always on the job, Girard was credited with thirteen points at the end of the first quarter. In the second quarter the local crew deciding it would not be outdone, came to its own, displayed a reversal of form and registered ten points. The first twenty minutes of play ended 13 to 10, Girard having the lead.

After the intermission the I. S. D., returned determined to stage a wonderful comeback. They showed a somewhat improved form over their work in the first half. Their work on defense was sparkling, but as offense there was only a gloomy speck of bright light. The forwards could not locate the hoop, and not a basket was registered to their credit in the last half of the contest.

The work on defense by the local crew, was so good that the visitors were forced to shoot from mid-court. When a red clad forward came in scoring once, there was no chance to shoot.

Inaccurate shooting was displayed by the I. S. D., all the way except in the second quarter. Schrader had tough luck in his shots, that seemed to reach their mark, but they rebounded to the floor again. The tilt ended with the I. S. D., trailing Girard by seven points. They had tried hard to overcome the lead but poor and inaccurate shooting obstructed the way.

The work of Taylor, Crabbe and Massinkoff shined brightly on the local five.

Coach Burns will take his "lossers" to Fulton, Mo., next Thursday where they will meet the Missouri School for the Deaf, in the first basketball game ever played between the two schools. The score:

SIX TO COMPETE IN HAVANA MIAMI RACE

Detroit.—Commodore Gar Wood of the Detroit Yacht club, has entered his express cruiser Gar Jr. III, in the Miami-Havana race scheduled for March 2. According to Powerboat authorities here at least six cruisers are expected to compete in the race which will run over a course straight across the gulf stream.

Cash prizes totalling \$10,000 have been posted by the Commission Nacional Para el Fomento del Turismo de Cuba. The winner will receive \$5,000, while \$3,000 and \$2,000 respectively will go to second and third place winners. The only conditions attached to the award of prizes is that at least four cruisers compete in the contest.

Following the run to Havana the cruisers will race to Key West on March 6, and on to Miami on March 7. The cash prizes, however are awarded only for the first leg from Miami to Havana.

Commodore Wood who won the event last year with his Gar Jr. II, is expected to enter several of his speedboats in the annual regatta over the Biscayne Bay course March 9 and 10. Runabouts and cruisers will be brought into action for this regatta.

MRS. LINDQUIST TELLS WOMEN OF MIDDLE AGE

What Lydia E. Pinkham's Vegetable Compound Did For Her

Kansas City, Mo.—"I was left in a very serious condition after childbirth and no one thought I could ever be any better. Then came the 'Change of Life' and I was not prepared for what I had to suffer. I had to go to bed at times to be perfectly quiet as I could not even stoop down to pick anything from the floor. I did not suffer any pain, but I was decidedly nervous and could not sleep. For nearly two years I was this way, and the doctor was frank enough to tell me that he could do no more for me. Shortly after this I happened to see in a newspaper an advertisement of Lydia E. Pinkham's Vegetable Compound. In a few days the medicine was in the house and I had begun its use and I took it regularly until I was well. I recommend the Vegetable Compound to others when I have the opportunity."—Mrs. MARY LINDQUIST, 2814 Independence Ave. Kansas City, Mo.

Watches Clocks

Have Yours Been Treating You Right or Late, and If Not Can You Blame Them?

When Were They Last Cleaned, Oiled and Adjusted?

If you stop to recall when your clock or watch last went to the jewelers you'll say "it's been a long time." If watches and clocks are to be depended upon they must receive even better care than is given an engine of any description, and you know they won't run if dirty and in need of oil. Think this over and bring yours in for inspection now, before it's too late.

NEW TRAFFIC PLANS MAY GO TO COUNCIL

Committee to Meet This Afternoon to Consider Parking Rules and Boulevard System—To Submit Work to City Council.

A meeting of the traffic committee of the Chamber of Commerce will be held at 2:30 o'clock this afternoon. At that time the chairman, T. C. MacVicar, will submit a plan of the city, showing a plan of parking cars in the business district, and also a projected boulevard system, that will connect Duncan park with Nichols park.

Under the parking plan devised by the committee, no autos will be allowed parked at the curb around the square, and only the center of the streets may be used for this purpose. No parking will be permitted on the side streets within a radius of one block of the square, which will greatly cut down the congestion in the narrow streets of the loop district.

The main idea in the projected boulevard system is to make West College avenue into a boulevard. The route which the cars would

follow has not been announced, but it is certain that West College avenue will be included in the system. At the meeting this afternoon, the committee will discuss the matter of submitting the new plans to the city council for the passage of ordinances to put them into effect.

LITERBERRY.

Mr. and Mrs. Al Dunlap of Jacksonville were visiting in Litterberry Thursday afternoon. Mrs. Albert Crum, Mrs. J. F. Berry and Mrs. M. M. Crum, all of Jacksonville, were Thursday guests at the home of Mrs. J. C. McMillen in Litterberry.

Mrs. J. A. Henderson, familiarly known as "Aunt Mat" Henderson, has again become a resident of Litterberry. She has spent the past few months at the home of her son, F. J. Henderson in Woodson. She will now have the companionship of Mrs. Lida Ray and is glad to be back in Litterberry.

FORMER RESIDENTS MARRIED LONG TIME

Mr. and Mrs. Bethel Crain Celebrated Fifth Wedding Anniversary at Home in Tennessee.

Mrs. Earl White of Woodson recently received a clipping from a Spartan (Tenn.) paper telling of the celebration of the golden wedding anniversary of her parents, Mr. and Mrs. Bethel Crain. Mr. and Mrs. Crain lived near Midway for several years and are well known to various residents of Morgan county. Mr. Crain is a brother of Dallas Crain of Woodson. It has been ten or twelve years since Mr. and Mrs. Crain moved back to Tennessee, but they still have a warm place in their hearts for Morgan county. The clipping referred to is given below:

Near Greenwood, Sunday, February 11, one of the most enjoyable events of the year, and an occasion of unusual interest to that community, and one that will linger long in the minds and hearts of their relatives and friends, was the golden wedding celebration of Mr. and Mrs. Bethel Crain. For fifty years these good people have walked life's untraveled highway together, and together borne the vicissitudes that come to the human family, and, upon reaching the fiftieth milestone of married life, fittingly commemorate the February 11, 1873, and tie to it their many pleasant memories by celebrating the recurrence of this day, February 11, 1923.

That the day might be more nearly the nuptial day, they were reunited, the Rev. George Meyers being honored with the call to perform this ceremony of their golden wedding, when each re-consecrated the vows taken, and began again pressing toward another fiftieth milestone, to which they traveled and to which they will attain if it be, perhaps, on the golden shores where it will be an eternal celebration.

Immediately after the ceremony, the bridal pair, together with their guests, repaired to the dining room where a sumptuous dinner was spread, and of which all partook with these aged young people. One article of diet deserving special mention, on this table, was an apple plucked last fall, from a tree on Mrs. Crain's father's home place, from which tree she gathered fruit before her marriage, fifty years ago.

To them were born six children, four boys and two girls, of whom three are living, two boys and one girl. The boys are A. B. Crain, of Woodson, Ill., and J. S. Crain, of near Doyle; the daughter is Mrs. Earl White of Woodson, Ill. They have ten grandchildren, living. Only Mr. and Mrs. J. S. Crain were present.

There is also one great granddaughter, Miss Helen DeLores Whaley, of Colorado Springs. The Expositor editor and family join their many friends in wishing for these most estimable people, many more marriage anniversaries.

The bride and groom were the recipients of many appreciated presents, among which was the golden cake sent them by Mrs. A. B. Crain of Roodhouse, Ill., and a five dollar gold piece to each, bride and groom, from Mr. and Mrs. A. B. Crain, besides other cakes and fruit.

TWO COMPANIES BID ON FIRE APPARATUS

Seagrave and American LaFrance Firms Submit Bids on Aerial Equipment for City—Committee Will See Trucks Demonstrated in Cities Where They Are in Use.

Bids on the aerial fire apparatus which the city intends to purchase were discussed by the fire and water committee of the city council and the business men's committee of the Chamber of Commerce at a joint meeting Thursday evening. Two bids were submitted on a four-wheel, front drive 65-foot aerial ladder truck with concrete equipment. The bid of the Seagrave Fire Apparatus Co. was \$15,250 for a truck equipped with a six cylinder motor.

The American LaFrance Fire Engine Co. submitted a bid of \$14,500 on a truck to be driven by a four cylinder motor of a special design and large size. The committee took both bids under consideration. It was definitely decided that nothing but a four-wheel, front drive truck would be purchased, and that the committee would make a trip of inspection to see actual demonstrations of the trucks.

The nearest point at which the American LaFrance truck can be seen is Rock Island, where one of these trucks has been in successful operation for three years. Chief Hunt was instructed to wire Glenn Scott, the company's representative, that the committee would be ready to go to Rock Island Tuesday, if preparations for the demonstration could be conveniently made at that time.

The fire and water committee of the council consists of Aldermen Michael McGinnis, chairman, and Aldermen Basil Sorrells and C. F. Ehler. The committee from the chamber of commerce is composed of J. W. Merrigan, A. R. Taylor, L. L. Horen, Lloyd Reid and William J. Brady.

FAVORITE LODGE INITIATES CLASS

Twenty Eight Candidates Given Rank of Page—Large Number of Members in Attendance.

Favorite Lodge No. 376, Knights of Pythias, initiated a class of twenty eight at the regular meeting Thursday evening. Thirty one were scheduled to take the rank of Page and 23 of the number appeared.

There was a large attendance of members, over 150 being present to witness the work which was conferred in an impressive manner by George W. Garlach and the Knights of Pythias quartet.

Nine new cards for membership were read during the business session. Following the work refreshments of hot pork sandwiches and skillets were served.

There were a number of visitors present from out of the city.

TALKED TO STUDENTS ABOUT SUCCESS

Dr. Harker Made Washington Birthday Address to Junior High Pupils.

In a talk at the junior high school Thursday morning Dr. J. R. Harker told the boys and girls that every family is a royal family in the United States and that friendship paves the way to success. The speaker went on to say that Americans have many reasons to appreciate their country. While in many countries in Europe there is but one royal family, here any man may rise to a high place. The height to which a man rises in this country depends upon his own individuality and upon the surrounding circumstances.

The history of the nation shows that its great men and leaders have come from no particular class. Washington, Adams, Jefferson, Jackson, Harrison, Taylor, Lincoln, Johnson and Grant every one representative of a different class. Several of these men came from the humble walks of life. Discussing success and the ladder that leads to it, Dr. Harker classified these steps as "industry, economy, reliability, vision, determination and perseverance." To ascend this ladder by these rungs, the speaker said, one must depend not only upon his own good qualities but upon friends, "and all the way up the greatest need is friends."

The boys and girls found the address one full of inspiration and presented with such clearness that none were left with any doubt as to the speaker's meaning.

WASHINGTON'S BIRTHDAY IN PUBLIC SCHOOLS

The grade schools of Jacksonville had programs of various sorts honoring the memory of Washington. In the Washington school, drills, recitations and marches were given in honor of the man from whom the school takes its name. In the afternoon the pupils of the upper grades gave two plays, some songs and recitations. In the first three grades of the Lafayette school stories of Washington were told while the upper grades heard Rev. T. W. Smith speak in the afternoon. At the Morton school each room had a short program although nothing elaborate was attempted.

LOCAL CONTRACTORS GET CLOVERLEAF JOB

S. G. Chumley is Awarded General Contract and Work Will Start Next Monday—New Structure is Only Beginning of Work on Big Plant.

S. G. Chumley of this city was awarded the general contract yesterday for the construction of the new office building of the Cloverleaf Casualty Co. Two other local contractors were given sub contracts on the building. The stone construction work will be done by J. A. Vasconcellos, and the plumbing and heating contract was awarded to Doyle Brothers.

Work on the new building will be commenced as soon as possible. The site is now practically clear of the old structures, and soon materials will be arriving on the ground.

The Cloverleaf company is placing its contracts for the work with local men, and all furnishings and equipment are to be bought thru local merchants and dealers. Next Monday has been set as the date of beginning work on the new building.

Some Construction Details. The building for which the contract has been let will have a frontage of 60 feet on East State street and 120 feet on North East street. It will be two stories in height with the south and west walls of stone and the north and east walls of brick. It will be of reinforced steel construction and built so that a third story may be added without special strengthening. In fact, the plans may be changed so that the third story is added in the course of construction under the present contract.

One entrance to the building will be at the southwest corner with another about forty feet to the east on State street and a third eighty feet north on East street. A stone pillar will give both strength and beauty to each one of the entrances, and there will be pilasters at intervals of fifteen or twenty feet on both south and west sides.

The plans of the interior of the first floor have not been fully worked out, and it may be used as one large room or made into three in accordance with the needs of prospective tenants.

As indicated, the entrances are such that they will be appropriate either for one great room or for three smaller ones. The East street entrance will open into a corridor from which stairs will lead to the second floor, and also provide approaches to rear doors of the ground floor rooms. Space will be provided for an elevator to be installed at a later time.

The north twenty feet of the second story will extend over a paved entrance. Coal for the building will be delivered in this entrance and the construction plan provides for the easy dumping of coal into the basement. A part of the basement room will house the heating apparatus and there will also be spacious rooms for the storage of supplies.

The second floor of the building will of course be used for company offices and while the general plan has been outlined, some changes are to be made before that point in the construction work is reached.

There will be wide entrances on the west side to provide connection with the present office rooms of the company. The building operations planned by the Cloverleaf are very extensive and the present project is only the beginning. At later dates there will be further construction work and the completed block will have a frontage of 100 feet on East State street and 180 feet on East street.

The general type of the building is such that it will be a distinct landmark to East State street and a structure of which Jacksonville can be proud.

CONTRACTORS HELD THEIR ANNUAL BANQUET

Associated Builders Met at Pacific Hotel—Address Made by E. W. Braun of Chicago.

The Associated Building Contractors of Jacksonville held an annual meeting and banquet Thursday night at the Pacific hotel. W. H. Stull as the president presided, with A. L. Black serving as secretary. After an excellent dinner had been served the chairman introduced several speakers.

This group included E. W. Braun, of Chicago, who is secretary of the state association; H. B. Carley, of Springfield, district director, and M. S. Evans, of Springfield, secretary of the Mason Contractors' association.

The principal talk was made by Mr. Braun, who presented facts about the growth of the organization, and talked particularly about the labor conditions in the building trades in Chicago, these conditions having improved very greatly in the past six months.

The list of guests also included Wiegand Brothers, of Alexander; H. L. Caldwell and Lee Crawford, of Jacksonville. The others present at the meeting were W. H. Stull, A. L. Black, Rex Shaw, Asa Robinson, Simeon Fernandes, J. M. Vasconcellos, Lloyd Vasconcellos, Joshua Vasconcellos, Clyde Vasconcellos, Lee Sullivan, T. W. Beadles, S. M. Foley, Irvin and Albert Biggs, S. G. Chumley, J. C. Walsh, G. H. Coultas, Marcus Robinson, C. C. Schureman and George Brown.

Miss Camilla Wright of 232 W. State street is confined to her home by illness.

SEAL SALE TO BOOST ENDOWMENT CAMPAIGN

Students and Faculty of I. W. C. Adopt Novel and Artistic
Publicity Stamps to Advertise
Effort to Raise Million—Group
Will Provide \$20,000 of the
Amount.

The students and faculty of Illinois Woman's college have undertaken a unique method of advertising the campaign which the college is making to raise a million dollars for additional endowment. Artistic seals have been designed by the art students, under the supervision of Miss Knopf, and are being sold for use on the backs of letters, parcel post packages, etc.

The printing of the stamp is under the management of Miss Neville, and already the second order for seals has gone in to the printers. The seals bear the legend, "Earn, Get, Give for I. W. C. Million," stamped in blue on an orange background. They are in three sizes, ranging from the size of a postage stamp to large stickers.

The sale of seals has been undertaken as a publicity measure only, and will be used to get the campaign before the people. The students and faculty expect to raise no money for the endowment by the sale of the stamps. However, these groups have undertaken to raise \$20,000 of the million, and all sorts of plans are being formed to provide those funds.

The students and faculty expect to raise their portion in the three ways set forth on the seals, earning, getting and giving. Aside from the actual pledges which will be made, many entertainments and other features will be employed to raise the \$20,000.

One of the informal poses of the Elks' Male chorus in a number to be given at their concert Tuesday evening.

ELKS CHORUS CONCERT TO DRAW BIG CROWD

Ticket Sale Proves Large and Capacity House is Expected—Many New Numbers Being Put in Shape by Chorus.

The sale of tickets for the concert of the Elks' male chorus, to be given Tuesday evening, February 27, at the high school auditorium, gives assurance of a capacity house. It is thought that the concert will have to be repeated, as the demand for tickets now bid fair to exceed the available seating space in the auditorium.

The chorus is rehearsing every night, and at the last rehearsal two new numbers were tried out and will be used in the concert. One of the special features will be a musical reading by Richard Reynolds, with the accompaniment of the chorus is Willard Wessner. The following summary of the life and work of Miss Fern Patton, the soloist, will be of interest.

Miss Fern Patton, a young woman of great personal charm with a lovely soprano voice of exquisite quality and with an ever gracious and captivating manner, hails originally from Bloomington, Ill. Her early training she received in Bloomington, then later studied with eminent teachers in Chicago and New York. She is now again making her headquarters at her father's home in Bloomington and is continuing her vocal coaching with Arthur E. Westbrook, dean of the Illinois Wesleyan college of music. Of Miss Patton's singing in Haydn's Creation with the Philharmonic chorus in Bloomington recently the Pantagraph says, "Again we are proud of one of our 'home' artists. Miss Patton who has won distinction abroad gave generously of her voice and art in last evening's concert." A prominent New York critic says of Miss Patton's singing, "The voice of purity, beauty and warmth. Her singing is a gracious outpouring of golden tones. Her's is of the kind of which there are few in a generation."

While in Chicago Miss Patton held a position as soprano soloist on one of the most fashionable churches in the city and she now fills many concert club engagements in the city. Miss Patton is much in demand thruout the country for concerts of which this and next season she is giving but a limited number.

INCOME TAX FACTS

No. 21.

Within certain limitations interest and taxes paid during the taxable year may be deducted from gross income. Such items include interest upon a personal loan and taxes on a dwelling, as well as interest on business debts and taxes upon business property. The Federal income tax, however, may not be deducted, nor may there be included any special assessments for local benefits tending to improve the value of the property, such as paving or drainage assessments since they are, in fact, the cost of a permanent improvement.

Obligations of the United States issued prior to September 2, 1917, are wholly exempt from the Federal income tax. Hence interest, paid or accrued on indebtedness incurred, or continued to purchase or carry such obligations, is not an allowable deduction from gross income.

Personal indebtedness includes not only money borrowed to defray personal expenses—clothing, food, etc.—but also money borrowed for the purchase of real estate. If a person owes money secured by a lien or mortgage on his home, the amount of interest paid on such indebtedness may be deducted. Moreover, interest paid by the taxpayer on a mortgage upon real estate of which he is the legal or equitable owner, even tho the taxpayer is not directly liable upon the bond or note secured by such mortgage, may be deducted as interest on his indebtedness.

What Does It Mean To 'Have Your Block Ground'

The Crank Shaft Grinder is built on the order of a Lathe, with a live center on the tail stock.

The Shaft can be centered in chucks on head stock and tail stock in such a manner that the crank pin center is on a true center of rotation. This construction enables the operator to bring a grinding wheel surface in contact with the shaft surface and polish-cut the worn pin to a true round surface.

These are factory equipment machines and duplicate the original finish and trueness of the shaft. This work must also be done under favorable conditions by skilled mechanics.

The valves of the motor are the next important working parts. The Poppett Valve Motor carries valves made of Tungsten steel which must be ground accurately and have just the proper clearance in guide.

They Are Marvels of Beauty

—That is the remark of every one who has seen the new and lovely "spring 1923" patterns in imported and domestic woollens and worsteds which we are showing. They are wonderfully soft in texture and lustrous in finish, yet so firm in weave as to hold any form they are worked up into perfectly.

—They exclaim, "Marvels of Beauty," and they might well add "of utility" as well, and "remarkably reasonably priced."

SPRINGFIELD MAN SPEAKS AT BANQUET

State Street Church Holds Fathers and Sons Banquet—Dr. Walter R. Cremeans Main Speaker.

Dr. Walter R. Cremeans of the First Presbyterian church of Springfield gave an interesting address last night at the annual Fathers and Sons banquet of State Street Presbyterian church. The speaker's main theme was that the father and son must see things thru the same "Specs." He said: "The father and son are prone to look at the various phases of life in a different manner. As each sees things differently he cannot be really the chum and friend of the other. The father must take an interest in both the work and play of the son, and he will be richly rewarded later by being his son's adviser and confidant."

Mr. Cremeans spoke of the big issue of the foreigner as follows: "Some foreigners are not what we would like to see them. We Americans are apt to think that we appreciate our country's advantages and are patriotic. But the newly arrived immigrant oftentimes really appreciates them more than we do."

"We find that a large number of the younger generation of immigrants know more of the events of American history, and have more of the spirit of American ideals, than our own younger generation. One of the greatest things that a father can do for his son is to teach him of his country's glorious history and bring him up with the 'American vision' firmly fixed in his character."

Following the delicious chicken pie dinner, served by the ladies of the church, the Rev. Mr. Marbach spoke briefly of the idea of the father and son movement and then read a cleverly written rhyme from the ladies, wherein they said that they wanted a man cooked dinner for themselves and their daughters.

The men of the church were unanimous in their decision to gratify the ladies and a motion was made and carried that such a dinner be given sometime near Mother's Day. Men made dinners have been served before at the church and have always proved unusually pleasant surprises to the ladies, as the dinners were really good.

CONCORD MAN PATENTS NEW HOG CRATE

A patent on an automatic hog crate has been granted by the federal government to Robert E. Abernathy of Concord, it's inventor. The people of this state seem to have an inventive turn of mind according to the following list of patents granted to Illinois citizens during the week ending February 15. Clarence J. Dooley, Rock Island, Fiction clutch; Dwight Ekiss, Dalton City, Air-valve opener; Albert Freeman, Moline, Vegetable and fruit receptacle; Fred McLaughlin, Canton, Detachable bit for coal augers; Andrew E. Olson, Wataga, Seed-corn sheller; Ernest L. Swarts, Dixon, Ice-card holder; Edwin A. Terry, Clinton, Amusement device; Edgar L. Rork, Peoria, Ironing machine.

Why the Nation Demands Calumet

—because it has more than the ordinary leavening strength; it raises millions of bakings every day to a light perfectly baked perfection that cannot be equaled.

—because it contains white-of-egg—the vital element that gives the housewives protection against using a baking powder that has lost its original leavening strength. It assures light, tender, tasteful things every time you bake.

—because it is economical—pure, sure and wholesome.

That's why the sale of Calumet is over 150% greater than that of any other baking powder.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

SHILOH LADIES AID MEETS THURSDAY

Regular Monthly Session Held Yesterday at Home of the Misses Moody.

The Ladies' Aid society of Shiloh M. E. church held a regular monthly meeting Thursday afternoon at the home of Misses Carrie and Irene Moody. There were twenty-one members and three guests present, and the session was an interesting and helpful one. The program opened with the singing of "Building, Daily Building," by the society, after which came the following numbers:

Scripture reading—Mrs. Ethel Bourn.

Lord's Prayer—In concert.

Roll call—Name an event in the life of Washington or Lincoln.

Paper, "The Love Affair of Abraham Lincoln"—Miss Evaline Hull.

Paper, "Washington and His Money"—Mrs. Marie Servoss.

Song, "Kind Words can Never Die"

Benediction.

At the business session the society voted in favor of making a pledge of \$25 toward the pastor's salary. A very pleasant social hour came in the late afternoon, and at this time the hostesses served dainty refreshments. The next meeting of the society will be on Thursday March 15, at the home of Mrs. Ollie Black.

CHIMNEY BLAZE

The fire department made a run to the residence of Fred O. May, 364 West College avenue, early last evening. A chimney was burning out and no damage was done.

REUBEN DAVIS HELD CLOSING OUT SALE

Farmer Residing Near Alexander Holds Holdings Thursday—Odd of Alexander News Notes.

Alexander, Feb. 22—Reuben Davis held a closing out sale Thursday at his farm home near Alexander. Mr. Davis is soon to leave for the state of Virginia for an extended visit with his brother, and is undecided as to his future plans.

C. M. Strawn was the auctioneer at the sale yesterday and K. V. Beerup the clerk. The sale totaled something more than \$2,500, the prices for the various offerings being quite satisfactory. The prices for implements were considered especially good. A few of the sales recorded are listed below:

Joseph Bergschneider, span mules \$392.50.
John Erickson, team geldings, \$252.50.
Frank Todd, horse, \$95.
A. J. Harris, 3 cows, at \$85, \$87.50 and \$90 respectively.
W. F. Kumble, cow, \$75.
Andrew Harris, 3 calves at \$39.50 each.
The Ladies' Aid society of the Alexander M. E. church served lunch and had quite a liberal patronage. The farm which Mr. Davis has been occupying will now be leased by A. M. Sinclair.

ROCK PARTY GIVEN AT FRANKLIN LAST NIGHT

Mr. and Mrs. Newton Wood entertained a number of friends at a rock party Thursday evening at their home in Franklin. The house was prettily decorated for the occasion, and dainty refreshments were served by the hostess, both refreshments and decorations being in keeping with the Washington Birthday season. The guests were Misses Nora and Dorothy Mansfield, Eunice Armstrong, Eloise and Mary Mayfield, Mrs. Alice Mansfield, Miss Velma Day, Mrs. Harlan Roberts, Miss Rhoda Scott, Miss Mary Douglas, Miss Hattie Scott, Ralph Dahman, Fred Scott, Roy Smith.

FORMER RESIDENT OF WHITE HALL IS DEAD

White Hall, Feb. 22.—Word received here brings news of the death of Mrs. A. Bubenhof at Columbia, Mo., following an attack of pneumonia. The family left White Hall in 1914, when he sold his bakery business to Ross & Clark, and were located at Mexico, Mo., where Mr. Bubenhof conducted a large bakery until going to Columbia about three years ago. The family resided at Greenfield before coming to White Hall. Mrs. Bubenhof was about sixty years of age. There are five children.

CAR DAMAGED WHILE DRIVER SEES MOVIES

While Miss Dorothy Magill was attending a moving picture show Wednesday night her Ford Sedan, which she had parked in front of Loug's pharmacy caught fire. The fire department arrived in short order and by using the chemical killed the blaze before much damage was done. It is thought that the fire started from a short circuit.

REV. W. E. SPOONTS WILL HOLD REVIVAL

Next Monday Rev. W. E. Spoonsts of Northminster church will go to Rockbridge in Greene county to hold a two weeks revival there. There is no Presbyterian church in Rockbridge and the meetings will be held by the various denominations in the Methodist church building.

For domestic help-

It's only fair that your domestic help should have a sanitary bathroom of their own. You'll easily think of many other good reasons why their bathing and toilet facilities should be separate from your family's bathroom. If need be, the additional bathroom can be built in an alcove, a large closet, or in any space five feet square. It can be fully equipped at a moderate cost.

FORMER J. H. S. STARS ON ELKS LINEUP

Al Arter and Ed Lewis, both of last year's J. H. S. championship basketball team have been signed up by the management of the Elks team for the remainder of the season. Arter is a guard and Lewis a forward. The management of the Elks team feels that with this reinforcement the Elks will stand a good chance of winning the city championship in a tournament to be played later in the season. The team has two games scheduled for next week and is practicing every night in preparation for them.

Ideal Baking COMPANY

Eat More Bread

Mr. Geo. T. Lukeman, local Ford dealer who has just returned home from St. Louis where he attended the Automobile Show, is most enthusiastic over the Lincoln and Ford car exhibits there.

"The Lincoln car display of the Ford Motor Company was most attractive and held the attention of every one interested in quality cars," he said. "The Lincoln cars show remarkable advances in the construction of fine motor car body work and are distinguished by superior finish. Mechanically the cars show a number of refinements and a new conception in finish of the working parts of the motor itself. All developments in the Lincoln tend toward the ultimate perfection in automobile design and construction."

"New improvements in the Ford cars, both open and enclosed models, are attracting much favorable attention and many comments are heard regarding the finish which is on a very high quality aspect. The new slanting windshield on the open models is most popular and persons interested in the enclosed types remark upon the excellence of the fabrics used in the upholstery and also upon the window lowering devices which are of the same general nature as those used in the higher priced automobiles. The high excellence of the Ford performance is, of course, universally recognized."

"Reports coming in at the St. Louis Branch show rather surprising sales of Ford cars and indications are that a shortage will come by early spring."

"The production schedule set for the Ford Motor Company's plant at Detroit for 1923 is 6,000 cars a day, but this schedule will not be reached until about April 1st."

"Sales now are running more than 100,000 a month, and have been since last April, in fact, and at present absorption is about neck and neck with production."

"There is no question but what the prospective purchaser of a Ford car will act wisely if he places his order immediately. Then he will be assured of having his car when he wants it and will not have to wait."

WRITES LETTER FROM HOT SPRINGS, ARK.

W. J. Waters Finds Scenery in Arkansas—Reports Very Interesting and Beneficial.

The following letter was written to the Journal by W. J. Waters, who is now spending some weeks at Hot Springs, Ark. The many Morgan county friends of Mr. Waters will be interested in what he has to say of his present location. The letter follows:

Hot Springs, Ark., Feb. 18, 1923.

In as much as others have assumed to write of what they see and where they are, I will try my hand. I left Jacksonville Jan. 30th and landed in Hot Springs, on the 31st; my first trip. I find this a city of 15,000 people situated in the Ozark Mountains, known as one of the greatest health resorts in the U. S. I find people here from all states and one more from Canada.

There is no soil here. The farmers live 35 and 40 miles out and drive in here with all kinds of produce. Some of all kinds, mostly in wagons or all kinds. Most all of them drive mules.

They bring in dressed hogs, beef, chickens, eggs, rabbits, hides, furs or any thing they have. It is a real treat to go down to the market places and see them come in. They put up their mules and stay all night. Some time they bring the family, dog and all. They are fixed at those places to keep them.

They do their own cooking and have a large fire place that burns wood to warm their toes by.

They either sell their produce or peddle over town. I find prices here practically the same as in the north. There are a great many motels here. The Eastman is the largest with 650 rooms.

At one time they accommodated 900 people. Most every house for a mile from those bath houses has rooms to rent. That is the way they make their living here. My pal and I are doing light housekeeping. I suppose, but we have what we want and are getting it cheaper than we did in Jacksonville. Our expenses, so far have been less than 13 cents a meal and they say I am getting fatter every day. Well maybe so. The only time I ever was fat was when I ate my own cooking.

We are thinking some of leaving here next Sunday or Monday. My pal will come back to Jacksonville but I intend to go to Swanton, Okla., where I have a sister and I will not promise when I will come back. I am just as much at home here as I ever was anywhere. I think if I were out in the country a while I would learn to be a real Arkansawyer.

There are many things to see here including an ostrich farm with 30 birds. Some of them stand 4 1/2 feet high. They weigh from 150 to 300 pounds and have begun to lay. Their eggs are larger than a quart cup and weigh 4 1/2 pounds and sell for \$5.00 apiece.

As this is getting lengthy, I will have to leave some to tell when I get back. I have met B. P. Spencer, J. J. Sims, John Criswell, John Brownback, from Waverly, Will Kemp and wife from Roodhouse. I will close by wishing you all the pleasure of visiting this city and seeing for yourself.

Tanlac Ended Stomach Trou-
ble, Restoring Full Weight.
"I can map out a big day's
work now knowing I can take
care of it, for Tanlac has put me
in splendid shape," said Thomas
Korbois, 19 W. Jackson Boul-
vard, Chicago, Ill., well-known
Loop business man.
"I had suffered for nearly a
year from loss of appetite and
stomach trouble. I couldn't eat
heavy things like cabbage and
sausage, and what I did eat
seemed to do me harm instead
of good. Gas and shortness of
breath greatly hampered me. I
had pains all through my body,
and my nervous run-down con-
dition was gradually destroying my
health.
"Well, sir, it has only taken
five bottles of Tanlac, one less
than the full treatment of six, to
iron out all my troubles. I can
dispose of corn-beef and cab-
bage, or anything else I want,
without a particle of indigestion,
and have gained twenty pounds.
I always feel fine and fit now,
and the credit all goes to Tan-
lac."
Tanlac is for sale by all good
druggists. Over 35-million bot-
tles sold.—(adv.)

MAJOR DALTON IN
BUSINESS 47 YEARS

Well Known Resident Has Op-
erated in One Location that
Long — 810 G. V. Business
Personal Attention.

William H. Dalton, one of
Jacksonville's best known citizens
yesterday completed his forty-
seventh year of business.
February 22, 1876 Major Dal-
ton, as he is better known, open-
ed a grocery store at 431 South
Church street. Through the years
he has given the store his personal
attention and was on the job
yesterday morning as usual.
It is a rare thing for a man to
remain in business for a period of
forty-seven years. But it is more
remarkable when that business is
conducted in the same location
for that length of time.
Major Dalton is 69 years young
and walks with as much vigor as
many men half his age. He makes
a daily trip to the business sec-
tion of the city and always stops
for a visit at the fire department.
Nearly every night except Satur-
day he may be found discussing
topics of the day at the Cassell
cigar store.

MANY WILL GATHER
AT CONVENTION

Excellent Program Provided for
Central Division of the Illinois
State Teachers' Association in
Bloomington.
Two thousand five hundred
school teachers are expected to
attend the annual convention of
the Central Division Illinois State
Teachers Association to be held
in Bloomington, Thursday, Fri-
day and Saturday, March 29, 30
and 31.
The central theme of the con-
vention will be "Americaniza-
tion."
Dr. Richard Burton of the Uni-
versity of Minnesota will speak on
the subject, "Americanization
Thru Literature" on Thursday
evening. Dr. William Lowe
Bryan, president of the Indiana
University, will speak on the sub-
ject, "Education for American
Citizenship." Dr. Frank S. Hyer,
president of Whitewater, Normal
University will give an address on
the subject, "An Equal Educa-
tional Opportunity for Every Boy
and Girl in America" during the
Friday morning session. Sec-
tional meetings for the teachers
will be held during the afternoon
on Friday and many interesting
talks will be given.
A very important program has
been prepared for Saturday morn-
ing. Hon. Francis G. Blair, state
superintendent of public instruc-
tion will speak on the subject
"The Teacher, Today and To-
morrow," and Robert C. Moore,
secretary of the Illinois State
Teachers' association, will give
an address on the subject, "The
Present Status of School Legisla-
tion."
Prof. G. E. Knapp, head of the
music department, Oshkosh, Wis.,
Normal, has been obtained to lead
the community singing during the
general sessions.
The Central Division of Illinois
State Teachers' Association in-
cludes some of the best territory
in the state and the meeting in
Bloomington is expected to be one
of the best ever held. The execu-
tive committee has arranged with
the Association of Commerce of
Bloomington so that they can pro-
vide every teacher a comfortable
place to stay while in the city.

MANY WOMEN MAKE
INCOME TAX RETURNS

Thousands Required Under Exis-
ting Law to Pay Taxes to Gov-
ernment.
Thousands of women are re-
quired to file an income tax re-
turn and pay a tax on their net
income for the year 1922. No of-
ficial estimate can be given of
the number of such women, but
statistics of income for the year
1920, recently issued, show that
approximately 503,000 women
filed returns for that year, claim-
ing the \$1,000 exemption allowed
a single person. The amount of
net income reported by these
women was \$1,264,955,727. In
addition there were filed 132,181
returns by women claiming an ex-
emption of \$2,000 as the head of
a family. "A person who supports
and maintains in one household
one or more individuals closely
related to him (or her) by blood,
marriage or adoption." Net in-
come reported by these women
for the year 1920 amounted to
\$338,264,530. Under the revenue
act now in force the personal
exemption allowed the head of a
family is \$2,500 if the net income
for 1922 was \$5,000 or less, and
\$2,000 if the net income exceeded
\$5,000.
The number of wives making
separate returns from husbands
for the year 1920 was 77,558 re-
porting net income of \$534,840-
405. These figures show the in-
come reported in returns by wo-
men forms an important part of
the aggregate income of the peo-
ple of the United States.
A woman who was widowed
during the year 1922, unless the
head of a family, or remarried on
or before December 31, 1922 may
claim a personal exemption of
only \$1,000. A divorcee, or wife
who continuously and without
necessity makes her home apart
from her husband is classed as a
single person, and entitled only to
the \$1,000 personal exemption.
Whether a man and wife are
"living apart," for the purpose of
the income tax law, depends upon
individual circumstances. A wife
who supports an invalid husband
in a sanitarium may claim the
exemption allowed a married
couple. The separation is one of
necessity.
The revenue act does not pre-
scribe the amount of the exemp-
tion allowed a married woman
living with her husband. Married
couples living together are grant-
ed an exemption of \$2,500 or \$2-
000 depending upon whether
their combined net income is \$5-
000 or less, or more than \$5,000.
Husband and wife may make
separate returns or they may
make a joint return. In the
event separate returns are made,
either husband or wife may claim
the exemption allowed married
persons, or they may divide it be-
tween them in such proportion as
they choose.
The period for filing income
tax returns ends at midnight
March 15.
